ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: ANTENNA MEANS

(57) Abstract: The present invention relates to an antenna means for transmitting and/or receiving RF-signals in at least a first fre-
quency band. The antenna means comprising a ground plane means (20) arranged to be connected to ground of a circuitry of a radio
communication device, a conductive radiating structure (10) having a first end (12) and a second end (14), where said conductive
radiating structure (10) being separated from the ground plane means (20). Said first end (12) being connected to ground and said
second end (14) being a feed portion.
